Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Acknowledgments

1. Acknowledgment is made of the amendment filed 9/14/05.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 5, 7, 9, 13-16, 18, 19, and 21 are rejected under 35 U.S.C. 102(e) as being anticipated by Nada (US 6,591,173 B2).

Nada discloses a hybrid vehicle comprising a primary drivetrain or engine 150, an auxiliary drivetrain or motor MG1, MG2, driven by battery 194, wherein a SOC (or first performance limiting strategy) of the battery is detected and a plurality of maximum speed values (or second performance limiting strategy) and vehicle speed ranges are set by a controller or ECU 210 based on the SOC values, as shown in figure 13.

With respect to claim 18, Nada also discloses a planetary gear set with meshing gears 120, wheels 116R,L, as shown in figure 1.

Allowable Subject Matter

3. Claim 1 is allowed.
4. Claims 6, 8, 10-12, 17, and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 9/14/05 have been fully considered but they are not persuasive. With respect to the applicant's arguments concerning new claim 21, similar to old claim 1, due to the broad terms recited in this claim, such as "driving characteristic, and performance limiting strategy, almost any controller can read on the claim if it switches control from one drivetrain to another. Nada appears to switch control of the drivetrains based on a SOC of the battery, see columns 12-16.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3618

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
